The large antique chemist bar is the centrepiece surrounded by rich leather seating, red velvet and chandeliers. The stage makes it the perfect choice for a range of performance events and live music from acoustic sets to full band set ups, with ample floor space to offer cabaret style seating or an intimate dining experience.

Testimonials

"One of the most quirky and flexible venues in central London. Every room offers a unique experience" - *Wesley Mendy, Founder, Prestige Events Magazine, and COOL Venue Awards*

"The organisation by yourself (Egg Events) in advance of the event made organising our Christmas Party easy and stress free and your management during the night was superb which meant everyone could enjoy the night. You were always willing to help out with extra bits which gave the night uniqueness. The attendees thought the venue was great, especially after the recent refurbishment. The hog roast also went down well. I got a lot of feedback from people that attended that it was one of the best Christmas Parties we have had."

Gareth Hanson, Tesco, UK

"I would recommend Egg as a diverse venue in a central London location with an experienced events team who are friendly and accommodating. The team were in constant contact and responded to requests during both the preparation and the event itself. Thank you to all of the team for your commitment to make our event a success."

Laura Adeshian, French Connection

"We recently had our agency summer party at Egg, and it went off brilliantly. All of the staff at Egg were nothing but professional throughout the experience, and the management team couldn't have been more helpful. We've been burned previously working with large famous nightclubs in London like Egg, but these guys went above and beyond the call of duty not only in the set-up of the event but also in the inevitable last-minute requests we chucked their way. Everyone had a fantastic night and, despite quite a few sore heads the next day, we couldn't have asked for a better night. Thank you very much!"
